THE PATH TOWARDS GENDER EQUALITY

With the aim of performing its mission in the best possible way and in accordance with its strategic vision, ManyDesigns has decided to adopt a Gender Equality Management System (GEMS) compliant with UNI/PdR125:2022, as a valid tool to ensure gender equality relating to the presence and professional growth of women, enhancing the inclusive culture and the activation of processes capable of developing female empowerment.

Achieving certification for ManyDesigns represents only the first step in a path of implementing gender equality policies, with a view to improving and promoting gender equality. The certification, in fact, aims to accompany and encourage the organization to adopt policies suitable for reducing the gender gap with the resulting benefits for staff wellbeing, as well as reputational and ethical impacts.

The attention with which ManyDesigns focuses its commitments, so that its GEMS meets the requirements specified in UNI/PdR 125:2022, is inspired - in line with the Gender Equality Strategy 2020-2025 defined by the European Union - by the pursuit of the following objectives:
